PROJECT ABSTRACT :

Catering is the business of providing service to any type of events .

- Mobile cater serves food directly from a vehicle . mobile catering is common at outdoor events.
- Wedding cater provides food to the wedding party . here we can provide food for all types of events with in amount and good quality .
- Cooking is a passion for us . it has been a family tradition to enjoy cooking and dedicate ourselves in serving others .

PROJECT NEED :

- Giving the best quality of food and making every one happy .
- Gathering different types of recipies at one place and providing the best service .
- We can place the orders on the customer basis . "Food is an important part of balanced diet " so we are giving important to diet factors .
- The flavor full foods are rich in spices are used in preparing recipies .

msw

PROJECT USAGE :

- It helped for catering websites
- Food is with low price and good quality .
- We can save our time by using this website for ordering food for events in less time .
- By using this we can get a basic idea about the items .

BENEFITS :

- It does not matter whether you are planning a meeting . corporate event , birthday party , wedding or even a charity event , the quality of the catering we supply can make all the difference to the success of your event .
- Hiring a professional team of caterers and waiting staff can be very impressive and help to make your event look and feel the part .
- There are many benefits to hiring a professional caterer rather than attempting to provide catering yourself including .
- Time saving : you will already have the stress of planning your event sending invitations and finding the perfect venue so , you do you really need the stress of arranging and preparing the catering yourself ? by hiring a professional catering company and they can save you the time and stress of worrying about the food ,all you have to do is agree the menu and type of food you want they will take care of the guest .
