## **Facilities in the Institution for the management of the different types of degradable and non-degradable waste :**

- Solid waste management
- Liquid waste management
- E-waste management
- Waste recycling system
- Hazardous chemicals and radioactive waste management

### **Solid Waste Management**

Dust bins are provided one in each room and corridors to collect solid waste. Display boards regarding the provision of dust bins. Students are educated to throw solid waste strictly in dustbins. Gram Panchayat will collect the solid waste and garbage on daily basis. Display of slogans and thoughts in the verandahs.

### **Liquid Waste Management**

The drain water in the institute is diverted to the covered pits, septic tanks, and the drainages established by local gram panchayats.

### **E-waste Management**

The institute has very efficient mechanism to dispose E-waste generated from various sources. E-wastes are generated from computer laboratories, electronic labs, Academic and Administrative offices. The e-waste includes out of order equipments or obsolete items like electronic kits, desktops, laptops, and accessories, printer, charging and network cables, Wi-fi devices, cartridges, sound systems, display units, UPS, Biometric Machines, etc.

E-waste is usually stored in a particular location (stores) for exchange offer or for disposing them off to minimum price. All such equipment's which cannot be reused or recycled is being disposed off.

### **Waste recycling system**

The institute separately collects the wet and dry waste and handover to the gram panchayat (sanitary section) which in turn will recycle the waste into vermicompost.

### **Hazardous chemicals and radioactive waste management**

The institute do not produce or utilize any such hazardous chemicals and radioactive materials.
